

The 2004 Annual Fall Computer Security Symposium

overview

Date:

October 13, 2004

(Registration: 8:30am -- Sessions: 9:00am - 4:30pm)

Venue:

The Cone Center - McKnight Auditorium
The University of North Carolina at Charlotte
9201 University City Blvd,
Charlotte, NC 28223-0001 (704) 687-2000

Sponsors:**Synopsis:**

Hosted by the College of Information Technology. Supporting organizations include Information Technology Charlotte (ITC), NCEITA (North Carolina Electronics and Information Technology Association) and InfraGard.

The rapid advancement of technology, especially the widespread use of information and communication technology, has significantly increased interdependencies among diverse business sectors as well as government agencies, and the ever-changing nature of international geo-politics, business environments and customer expectations is constantly creating new pressures on business organizations and governments to improve their systems security against possible malicious attacks.

The focus of this workshop is on time-tested best practices, approaches and strategies for improving the security of organizations' information systems. It will also offer an excellent networking opportunity for the attendees.

Intended Audience:

Business continuity practitioners, government administrators, IT managers, information security professionals, software developers, system administrators, and IT students.
